

EXPERIENCE

DEEP COMFORT
AND REACTIVE
PERFORMANCE
LIKE YOU'VE NEVER
FELT BEFORE...

- Softer, lighter weight Quantum™ fabric coil encasing enhances personal comfort as it reduces partner disturbance.
- “Barrel-shaped” coils provide an initial luxurious softness followed by firmer, more responsive support as more weight is applied.
- Each coil flexes independently to optimize body contouring while quietly providing support.
- High tensile wire is electronically tempered as each coil is formed, to improve resiliency for better performance and longer mattress life.

Comfort
and
support
as individual
as your
own
Body Print.

Five-Zone Body Print® Advanced

Fabric Encased Coil Support System
8" high profile coils are precisely formed by computer control, then pre-compressed and inserted into premium Quantum™ lightweight fabric; each pocket is ultrasonically welded.

5-Zones of Posturizing Support
More resilient support, shoulder, hip and thigh zones feature five strategically placed support zones to equalize additional body weight for uniform, deeply individualized comfort over the entire unit.

Soft Touch® Coils
Designed to create overall softness and comfort to the touch followed by good responsive support that helps maintain correct postural alignment.

Tri-Zone Body Print®

Fabric Encased Coil Support System
6" high profile coils are precisely formed by computer control, then pre-compressed and inserted into premium Quantum™ lightweight fabric; each pocket is ultrasonically welded.

3-Zones of Posturizing Support
Support is added in the center third of the innerspring unit where body weight is highest. Center third band of support equalizes additional weight for uniform, deeply individualized comfort over the entire unit.

Body Print® Coils are designed to flex and conform independently of each other to reduce motion transfer and help eliminate partner sleeping disturbance.

Body Print Coils are encased in durable noise reducing Quantum Fabric, sewn into rows and ultrasonically welded together for greater strength.

Leggett & Platt's exclusive SoftTouch® coil springs provide initial softness to the touch, becoming firmer for needed support as weight is applied, resulting in luxurious comfort and support.

Body Print® conforms to your individual contours
